

Please do not weaken one of New Jersey's most successful consumer protection laws -- the Do Not Call Program.

It has been reported that over 2.8 million New Jerseyans have already signed up for the Do Not Call Program (representing approximately two out of every three residential phone lines in the state). The program has been a resounding success; many residents report almost a 100 percent drop in unwanted sales calls. It is actually a pleasure to eat dinner and not be interrupted by a telemarketier. I am still getting a few calls but once I tell them I am on the Do Not Call List they agree to remove my name/number.

Please reconsider and consider the voice of the 2.8 million citizens of New Jersey!
